Autumn 1 – Year 6

English

We will be developing a range of different skills in writing this term. We will be writing the following pieces of work:

An adventure story.

A letter to our class author.

A recount.

We will also be developing our SPaG knowledge.

In reading, we will be developing a range of skills including retrieval, inference and vocabulary whilst learning to read fluently with expression, though our new text, Kick..

We are reading…

In art, we will be developing our drawing skills and creating our own self-portraits.

Maths

This term we will be looking at:

- Place value
- calculation

We will be recapping all of our previous units to ensure we retain them, we will also be carrying out more arithmetic lessons to support the children with different calculation methods.

Science

This term we will be studying:

- Evolution and inheritance

We will be using and developing a range of different scientific enquiry skill to help us develop our knowledge in this area.

Geography

In Geography this term, we will be investigating the UK and developing our knowledge of place. We will also explore trade and land use.

RE

This half term, we will be studying how and why people go on pilgrimages.

PHSCE

As part of our PHSCE We will be starting our new unit 'family and friendships'.

We will be learning how to stay safe in a variety of ways including online.

Problem Solving

In problem solving we will be exposing to the children to range of question types and modelling how to break them down to identify the calculations required in order to be successful!

E-Safety

Alongside our computing unit, we will also complete our e-safety unit on Online Safety. This will include managing online information.

Computing

In computing, we will be exploring communication and collaboration looking at how data is transferred and shared.

PE

This term in Year 6, children will practice a range of skills exploring team building and cooperation.
